I consider myself very fortunate to be under Dr. Edelman's care. Not only has she taken great care of my health, she is lovely to speak with. I have multiple complex autoimmune disorders. I have been misdiagnosed in the past. Dr Edelman is the ONLY physician that was able to "think outside the box" to properly diagnose my medical condition and put a treatment plan in place. She is always thorough and speaks to my hematologist to discuss treatment options. Dr Edelman is truly a rare find!

Wow, leaving, all the best. I was scheduled to get an x-ray based upon our last meeting. Due to Covid I avoided doing it. Now that I have both shots I am ready. Is it still in the system and can I get the x-ray done and sent to you, or do you need to enter a new referral. Recall, I believe an x-ray of both hands.

Hi Dr Edelman

So sorry to hear you are leaving, however I wish you all the best in your new endeavors. If you don't mind me asking, will you be practicing someplace else. I would be more than willing to follow you if so. You have been so wonderful and I have been so blessed to have you as my doctor. You are such a compassionate and awesome doctor.

So please let me know if you will be practicing someplace else, I certainly would follow you. If not would you be able then to refer me to a new doctor. So hoping that I would be able to continue with you someplace else.

All the best

THEN I rescheduled a telemed apt. But they told me the wrong time. So again, missed my apt. Now I tried to make ANOTHER apt and they said ur leaving and can not get me in. I need meds. And I want to know where ull be practicing after you leave. Is there any way you can get me in before u leave??  
Thank you

Hi Dr. Edelman:

So ironic that I received a message today as I was going to set up a tele health call with you. I saw that you were leaving NYU. I am so sad to hear that because you truly are a gem and have been so helpful and so caring and helped me understand the issues that come with this my auto immune issues. I will call your office tomorrow to set up our call.

Sincerely,

**RE: Medication Question**

I seem to be doing a little better, though still feel a bit off with chills and such, assuming humira is working its way into my system and thats normal.

I just received the email about your departure from NYU. I am beyond devastated. You've been such an amazing, caring and compassionate Dr. to me, and have helped me through so much - I am at a loss for words. I hope that you are OK and that I will still be able to see you for our appointment on the 19th.
